PROFESSIONAL SUMMARY

Currently pursuing an MCA with a BSc IT degree, skilled in Data Analytics, SQL, Python, Power BI, Tableau, and Excel. Hands-on experience in data cleaning, analysis, visualization, and AI data preparation, with a strong interest in data-driven problem solving and analytics.

EDUCATION

Master of Computer Applications (MCA) | NMITD, Mumbai University | *2026 – Present*

BSc Information Technology | Laxmichand Golwala College, Mumbai University | *2023 – 2026*

PROFESSIONAL EXPERIENCE

AI Data Intern | peAR Technologies | *July 2026 – Present*

- Worked on refining, cleaning, and organizing raw data for AI model training, ensuring the data was accurate, complete, and properly structured.
- Analysed and verified data using Google Sheets and Excel, ensuring consistency and quality across datasets prepared for AI model training.

TECHNICAL SKILLS

Languages: Python, SQL

Tools & BI: Microsoft Excel, Google Sheets, Power BI, Tableau

Databases: MySQL

Concepts: Data Cleaning, Data Visualization, Business Intelligence, Dashboard Development, ETL, KPI Analysis

PROJECTS

Restaurant Orders Analytics Dashboard | *GitHub*

Power BI, MySQL, SQL, Excel, Power Query

- Built a 5-page interactive Power BI dashboard to analyze INR 299K revenue, 500 orders, and customer behavior - used Power Query for ETL operations and SQL joins/aggregations for data preparation and KPI analysis.
- Wrote SQL queries (JOINs, aggregations, and schema design) for revenue analysis and customer insights; identified Debit Card as the top payment mode and high-spending customers, enabling data-driven business decisions.

HR Analytics & Employee Attrition Dashboard | *GitHub* | *Tableau Dashboard*

Tableau, Excel, IBM HR Analytics Dataset

- Built a 2-page interactive Tableau dashboard to analyze 1,470 employees across the IBM HR dataset - tracked KPIs including 16.12% attrition rate, average monthly income of INR 6,503, and workforce demographics by department, gender, and education.
- Performed attrition analysis across overtime, job role, age group, and salary slab - recognized the 26-35 age group and Laboratory Technician role as the highest attrition segments, delivering actionable HR insights.

Zomato Delivery Analytics Dashboard | *GitHub*

Python, Pandas, Matplotlib

- Analyzed Zomato delivery data using Python (Pandas), performed data cleaning, GroupBy aggregations, and statistical analysis across 6 key dimensions: delivery time, traffic, weather, vehicle type, order type, and city distribution.
- Built a multi-chart analytics dashboard using Matplotlib to visualize operational trends, identifying Metropolitan cities as the highest-order segment and Motorcycles as the most commonly used delivery vehicle.
