CAREER OBJECTIVE

BSc IT final-year student with hands-on experience in SQL, Python, Power BI, and Excel. Passionate about working with data, identifying patterns, building dashboards, and turning raw information into meaningful insights. Seeking an entry-level analyst or technology-focused role where I can contribute, learn, and grow professionally.

EDUCATION

BSc Information Technology | Laxmichand Golwala College, Mumbai 2023 – 2026 (Final Year)

TECHNICAL SKILLS

Languages: Python, SQL

Tools & BI: Excel, Power BI, Tableau

Database: MySQL

PROJECTS

Amazon Sales Performance Dashboard [GitHub](#) May 2026

Power BI, Power Query, Excel, CSV

- Built an end-to-end Power BI dashboard analyzing ₹244K sales, 250 orders & 714 units — tracking monthly trends, category performance, and order status breakdown.
- Applied Power Query for data cleaning; identified Electronics as top category and PayPal as most used payment method (28.56%) — delivered actionable business insights.

Language Translation Tool – Text Data Pipeline [Live Demo](#) Jan – Feb 2026

Python (Flask), deep-translator API, Render

- Built and deployed a real-time multilingual pipeline (English, Hindi, Marathi) — processing raw input through backend logic and API calls to deliver structured translated output.
- Implemented client & server-side caching reducing API response time by 30%+; processed and structured 100+ translation requests with accurate multi-lingual output.

SkillBridge – Data-Driven Learning Platform [Live Demo](#) Jul 2025 – Apr 2026

PHP, MySQL, SQL

- Designed a MySQL database with 5+ tables; wrote optimized SQL queries (JOINS, aggregations) to track user activity — identified peak booking hours, reducing manual lookup time by 40%+.
- Developed an Admin Dashboard with real-time KPIs on registrations and session volume — enabled data-driven decision-making for platform management.
- Analyzed review patterns across 3 rating parameters to surface top-performing educators and support data-driven teacher ranking decisions.

Deloitte Australia – Data Analytics Job Simulation [Forage](#) Apr 2026

Excel, Tableau, Data Forensics

- Performed forensic data analysis on a business dataset to identify operational anomalies and inefficiencies.
- Built Tableau dashboards and delivered a client-ready report with actionable business recommendations.
