PROFESSIONAL SUMMARY

BSc IT final-year student skilled in SQL, Python, Power BI, and Excel. Experienced in statistical analysis, data visualization, and building business intelligence dashboards to generate actionable insights.

Seeking an entry-level data analyst or business intelligence role to contribute to data-driven business decision-making and grow professionally.

EDUCATION

BSc Information Technology | Laxmichand Golwala College, Mumbai University | 2023 – 2026

Higher Secondary Certificate (HSC) | Shri Gauridutta Mittal Junior College, Sion East | 2023

Secondary School Certificate (SSC) | Shri Gauridutta Mittal Vidyalaya, Sion East | 2021

TECHNICAL SKILLS

Languages: Python, SQL

Tools & BI: Microsoft Excel, Power BI, Tableau

Databases: MySQL

Concepts: Data Visualization, Business Intelligence, Dashboard Development

PROJECTS

Restaurant Orders Analytics Dashboard | [GitHub](#)

May 2026

Power BI, MySQL, SQL, Excel, Power Query

- Built a 5-page interactive Power BI dashboard analyzing ₹299K revenue, 500 orders, and customer behavior — used Power Query for ETL operations and SQL joins/aggregations for data preparation and KPI analysis.
- Wrote SQL queries (JOINS, aggregations, schema design) for revenue analysis and customer insights; identified Debit Card as top payment mode and top spenders — enabling data-driven business decisions.

Amazon Sales Performance Dashboard | [GitHub](#)

May 2026

Power BI, Power Query, Excel, CSV

- Developed an end-to-end Power BI dashboard using Power Query ETL to analyze sales trends, category performance, and customer purchasing behavior — covering ₹244K sales, 250 orders & 714 units across 3 months.
- Applied data cleaning and transformation using Power Query; identified Electronics as top category and PayPal as most used payment method (28.56%) — delivered actionable business insights through interactive dashboard development.

Language Translation Tool – Text Data Pipeline [Live](#)

Jan – Feb 2026

Python (Flask), deep-translator API, Render

- Built and deployed a real-time multilingual pipeline (English, Hindi, Marathi) — processing raw input through backend logic and API calls to deliver structured translated output.
- Implemented client & server-side caching reducing API response time by 30%+; processed and structured 100+ translation requests with accurate multi-lingual output.

CERTIFICATIONS

Data Analytics Job Simulation – Deloitte Australia (via Forage)

Apr 2026

Performed data analysis and visualization tasks in a simulated business environment; derived actionable insights from datasets.

Data Analyst Certification – OneRoadmap

Apr 2026

Demonstrated core data analysis concepts including data interpretation, analytical thinking, and problem-solving through structured assessment.

AI Fluency: Framework & Foundations – Anthropic

Apr 2026

Learned fundamentals of AI, large language models, prompt engineering, and responsible AI usage in real-world applications.
