CAREER OBJECTIVE

BSc IT final-year student with hands-on experience in SQL, Python, Power BI, and Excel. Skilled in analyzing data, building dashboards, and generating business insights through data visualization and reporting.

Seeking a role where I can apply data analytics skills to contribute to business decision-making and grow professionally.

EDUCATION

BSc Information Technology | Laxmichand Golwala College, Mumbai

2023 – 2026 (Final Year)

TECHNICAL SKILLS

Languages: Python, SQL

Tools & BI: Microsoft Excel, Power BI, Tableau

Databases: MySQL

PROJECTS

Restaurant Orders Analytics Dashboard | [GitHub](#)

May 2026

Power BI, MySQL, SQL, Excel, Power Query

- Built a 5-page interactive Power BI dashboard analyzing ₹299K revenue, 500 orders, and customer behavior — covering revenue, delivery, ratings, and customer analysis using SQL-based data aggregation.
- Wrote SQL queries for revenue analysis, customer insights, and delivery performance; identified Debit Card as top payment mode and top customers by spending — enabling data-driven business decisions.
- Designed 5 dashboard pages — Overview, Revenue, Delivery, Ratings, and Customers — with interactive slicers and KPI cards to support multi-dimensional business reporting.

Amazon Sales Performance Dashboard | [GitHub](#)

May 2026

Power BI, Power Query, Excel, CSV

- Developed an end-to-end Power BI dashboard to analyze sales trends, category performance, and customer purchasing behavior — covering ₹244K sales, 250 orders & 714 units across 3 months.
- Applied data cleaning and transformation using Power Query; identified Electronics as top category and PayPal as most used payment method (28.56%) — delivered actionable business insights through interactive dashboard development.
- Analyzed sales drop in April and identified monthly trends using line charts, bar charts, and pie charts — providing a complete view of business performance across 3 months.

Language Translation Tool – Text Data Pipeline [Live](#)

Jan – Feb 2026

Python (Flask), deep-translator API, Render

- Built and deployed a real-time multilingual pipeline (English, Hindi, Marathi) — processing raw input through backend logic and API calls to deliver structured translated output.
- Implemented client & server-side caching reducing API response time by 30%+; processed and structured 100+ translation requests with accurate multi-lingual output.

CERTIFICATIONS

Data Analytics Job Simulation – Deloitte Australia (via Forage)

Apr 2026

Performed data analysis and visualization tasks in a simulated business environment; derived actionable insights from datasets.

Data Analyst Certification – OneRoadmap

Apr 2026

Demonstrated core data analysis concepts including data interpretation, analytical thinking, and problem-solving through structured assessment.

AI Fluency: Framework & Foundations – Anthropic

Apr 2026

Learned fundamentals of AI, large language models, prompt engineering, and responsible AI usage in real-world applications.
